Docket No.ACRYS.0101 Patent

## IN THE CLAIMS

The following is a complete listing of the claims pending in the present application:

- 1. (Original) A storage system comprising:
  - a drawer having a top surface;
  - a frame for accepting at least one drawer; and
  - a top plate for removably placing over the top surface of the drawer.
- 2. (Original) The storage system of claim 1, wherein said top plate has at least one hole for receiving a sample tube.
- 3. (Original) The storage system of claim 2, wherein each said hole has a removable insert.
- 4. (Original) The storage system of claim 3, wherein said removable insert has a throughhole for stabilizing the tube.
- 5. (Withdrawn) The storage system of claim 4, wherein said removable insert with said through-hole has a bore size decreasing in size from top to bottom.
- 6. (Withdrawn) The storage system of claim 4, wherein said removable insert has at least one flexible inner protrusion for stabilizing tubes of different diameter.
- 7. (Withdrawn) The storage system of claim 3, wherein said removable insert has a chamber open at the top.
- 8. (Withdrawn) The storage system of claim 7, wherein said removable insert with said chamber open at the top has a removable lid.
- 9. (Withdrawn) The storage system of claim 3, wherein said removable insert has a slide housing unit attached to the top of said insert.

Docket No.ACRYS.0101 Patent

10. (Original) The storage system of claim 1, wherein said drawer has a face plate.

11. (Original) The storage system of claim 8, wherein said drawer with said face plate has a card holder.

- 12. (Original) The storage system of claim 1, wherein said top plate may cover some or all of the top surface of said drawer.
- 13. (Original) The storage system of claim 1, further comprising a separator removably inserted into said drawer.
- 14. (Original) The storage system of claim 1, wherein said drawer has a bottom plate for supporting bottles and/or sample tubes.

Docket No.ACRYS.0101 Patent

- 15. (Withdrawn) A tube rack comprising:
  - a base;
  - at least one vertical support member; and
- a top plate removably attached to said vertical support member, wherein said top plate has at least one hole for receiving a sample tube and wherein each said hole has a removable insert.
- 16. (Withdrawn) The storage system of claim 15, wherein said removable insert has a through-hole for stabilizing the tubes.
- 17. (Withdrawn) The storage system of claim 16, wherein said removable insert with said through-hole has a bore size decreasing in size from top to bottom.
- 18. (Withdrawn) The storage system of claim 16, wherein said removable insert has at least one flexible inner protrusion for stabilizing tubes of different diameter.
- 19. (Withdrawn) The storage system of claim 15, wherein said removable insert has a chamber open at the top.
- 20. (Withdrawn) The storage system of claim 19, wherein said removable insert with said chamber open at the top has a removable lid.
- 21. (Withdrawn) The storage system of claim 15, wherein said removable insert has a slide housing unit attached to the top of said insert.
